Volume XI Issue IV A pril 2020

EXECUTIVE ORDER NO. 121

We have received a number of phone calls regarding the COVID-19 pandemic and whether we are open for business. On March 27, 2020, Governor Cooper issued Executive Order No. 121, which includes several references applicable to the nursery and landscape industry. Plant nurseries, greenhouses, garden centers, landscapers, AG suppliers and similar businesses are considered essential in accordance with local or statewide Stay at Home Orders. We at Appalachian Naturescapes, will remain open to provide landscape services to our clients and customers. With this being said, we take this pandemic seriously. Our small office is taking precautions and following social distancing guidelines. Our outdoor crews are doing the same. If you do not feel comfortable with our team servicing your property during this time, please call our office. We will put your contract on hold. If we do not hear from you, we will assume it is ok to continue maintaining your property. Also, if you see our crews on site, please maintain the CDC guidelines of remaining at least 6 feet apart. Our employees have been instructed to do the same and not come in close contact with any client. Being designated an essential business is a privilege. It is our honor to represent our industry in a professional and compassionate way as we continue to provide much-needed services during this trying time.

Current Project

We live in an area of the state referred to as the "Foothills" and a good many of our projects involve addressing grade change. Incorporating steps and walls are two avenues we use to deal with

these challenges. This was a big part of the last project we finished a few weeks ago. Our installation crew leaders are like artists when it comes to using natural stone to build the hardscape features that are the foundation pieces of many of our projects. Being able to see one of these creations come to life is quite a treat. This last project was a complete make-over. We left the original firepit area intact and worked our magic around it and we have another blueribbon winner!

- 1 HANDS Wash them often
- 2 ELBOW Cough into it
- 3 FACE Don't touch it
- 4 FEET Stay more than 6ft apart
- 5 FEEL sick? Stay home
