

The Easter Lily

In Christian tradition, the Easter lily signifies rebirth and a new beginning. It is said that beautiful white lilies sprang up in the Garden of Gethsemane where Jesus wept in the last hours before he was betrayed by Judas. Easter lilies grace homes and churches each spring as a symbol of purity, joy, hope and life.

Current Project

Spring is officially here and although we haven't seen many warm sunny days and comfortable evenings just yet, there are plenty of them right around the corner and what better way to enjoy the pleasantness of a summer evening than listening to the crackle of a fire while enjoying your favorite beverage or eats with friends and family. One of our latest compositions of outdoor living space is a real work of art. It's simple yet elegant and assembled with superb craftsmanship. The varied materials of stone and plantings compliment each other well and fit into the space just perfect. All that is left to do now is enjoy. A big "Thank You" to our friends on Lake James for the opportunity to provide them with a fantastic fellowship destination right in their back yard!
